

Customer Base

AmpliTech is currently an official registered supplier to the US government (CAGE CODE # 3CS43) and has recently also become suppliers to the following:

- Agilent
- Alcatel
- BAE Systems
- General Dynamics
- Lockheed Martin
- L3 Communications
- Raytheon
- Northrop-Grumman
- Texas Instruments
- Thales
- Mitsubishi
- Marconi Selenia

Mission Statement

AmpliTech mission is to develop quality; state-of-the-art microwave amplifiers through a company built on experience, proven technical expertise, superior design heritage, and complete customer satisfaction.

Ultra Low Noise Amplifiers

Our Products

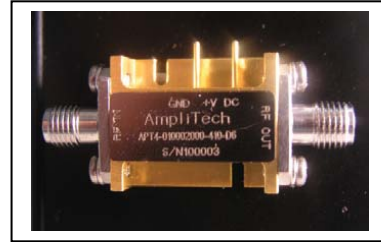

AmpliTech makes an extensive line of low noise, medium power, and SATCOM amplifiers available in narrow, octave, multi-octave, wide-band, and ultra-wide bandwidths.

Competitive pricing, high performance, quality, and reliability are the basis of all our amplifier products. All our products can be screened up to **Space Qualified** Level, and use **MIL-STD 883** guidelines for assembly and inspection, and come with a three year warranty. In addition, many of our designs can be **hermetically sealed** and **cryogenically cooled** to significantly improve the already lowest noise figure performance, as well as provide the highest caliber of reliability in terms of **MTBF** and **MTTF**. Aside from our listing of products we can also custom design products to your specifications.

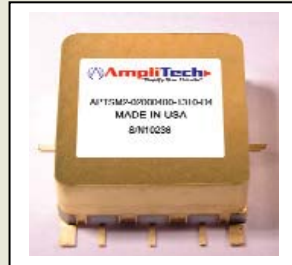

Low Noise Amplifiers

- Industry's Best Noise Figure's
- AC or DC Coupling
- Integrated Bias-T
- Wideband (0.1-26GHz)
- Custom Designs up to 40 GHz
- Space/Military Qualified
- Removable SMA Connectors
- GPO Connector Option
- Drop-in Capable

Space/ Flight Qualified Amplifiers

- Complete Custom Solutions
- Full Qualification Reports
- Many Low Cost Options
- Complete Traceability
- Complete documentation
- Short Lead Time

Surface Mount Amplifier

- Phase Matching/ Tracking
- Amplitude Matching/Tracking
- Laser Sealed
- Reverse Voltage Protection
- Low Profile
- Lightweight Design

SATCOM Waveguide Amplifier

- Extended Operating Temp Range
- Best Noise Figures Without Isolator Use
- Lightweight, Compact Design
- Weatherproof/ Rugged Design
- High Gain Options

Our Advantages

- 3 Year Standard Warranty
- Competitive Prices
- Government Clearance
- Most Efficient Production Techniques
- Quotes within 24 Hours
- Custom Solutions
- Production & Testing Done on Premises
- Excellent Customer Service
- High Quality Parts
- Outstanding Performance
